Nissan North America Inc.

04/2012 – 01/2015

Global Auto Manufacturer

SharePoint Architect – Franklin, TN (2012)

- Architected and implemented an internet facing **large SharePoint 2013 Enterprise** environment with both Active Directory and claims based authentication with SecureAuth for external user authentication consumption over SSL.
- Stood up multiple large SharePoint 2010 Enterprise farms for global use with **20,000+ end users**.
- Migrated all existing site collections from the 2007 Enterprise platform consisting of terabytes of content to the new 2010 farm with minimal downtime.
- Developed and implemented numerous custom **InfoPath forms** with **custom workflows** to replace outdated or nonexistent processes, significantly reducing process times.
- Assisted in development and **QA** on multiple **custom solutions** including **web service based** automated document management solutions and **C# based SharePoint solutions**.
- **Managed overseas support staff** in order to provide 24/7 support and custom solution integration.
- Lead Japan headquarters with the architecture of their existing SharePoint farm and collaboration platform standards.

Symbion Healthcare

04/2011 – 04/2012

Operator of over 70 short-stay ambulatory surgery centers and surgical hospitals.

SharePoint Developer – Nashville, TN (2011)

- Brought SharePoint 2010 Enterprise into the company as a new collaboration solution.
- Developed **multiple dynamic InfoPath forms** as solutions for non-existent processes.
- Developed **instructional videos** to assist large scale SharePoint & OnBase training. As well as **developed classroom style curriculum and individualized training sessions** to help ramp up newly delegated SharePoint Designers.
- Maintained and supported their existing **ECM package (OnBase)** for their heavily used document storage and workflow involved processes. Upgraded this environment to the industry standard. Integrated OnBase into SharePoint environment.
- **Heavy QA testing on all OnBase and SharePoint** workflow and InfoPath solution implementations.
- Managed multiple SharePoint projects with external vendors to develop vital corporate solutions to replace outdated existing solutions.

09/2008 – 4/2011

Psychiatric Solutions Inc. (Now Fresenius Medical Care)

The largest operator of owned or leased freestanding psychiatric inpatient facilities in the U.S.

Jr. Software Developer – Franklin, TN (2009-2011)

- Designed, developed and maintained multiple SharePoint farm environments including WSS 3.0, 2007 Enterprise, Foundations, 2010 Enterprise.
- Developed and implemented a **move strategy from SharePoint 2007 to a SharePoint 2010** environment.
- Managing **multiple SharePoint 2010 farms** (Enterprise and Foundations) allowing over 24,000 hits daily for our 14,000+ internal users.
- Integrated **Business Intelligence SQL data cubes** within SharePoint utilizing Reporting, Excel and Performance Point Services.

Ceres Terminals Inc.

12/2006 - 08/2008

Global marine container logistics and terminal operation business. It handles general cargos, RORO, bulk commodities, steels, grains, dry bulk materials, project cargos, and heavy lift and vehicles.

System/Web Administrator – Nashville, TN (2007-2008)

- Managed **Citrix farm applications and printers, Blackberry server administration** and SharePoint Enterprise administration.
- **Active Directory™ maintenance** for all of North America operations.
- Managed and moderated **the external company websites:** www.ceresglobal.com and www.YTI.com

Senior Helpdesk Analyst – Nashville, TN (2006-2007)

- Developed Escalation and On-Call policy and procedures.
- Assisted Support Director in **successful launch of twenty-four hour support network** for all maritime customers of Ceres Terminals Inc.
